

Reason No. 2 — "Why we advertise
National Bank Protection for your Savings"

Capital

National banks organized in cities of 6,000 or more population must have a paid-in capital of at least \$100,000; above 50,000 population, they must have more than \$100,000 capital before they are permitted to do business.

The purpose of this very wise provision of the law is to insure adequate responsibility behind an enterprise so vital to the financial interests of thousands of people. Further than this, the stockholders who pay in this \$100,000 of capital are liable to the creditors of the institution, namely the depositors, for an additional amount equal to the par value of the stock which they hold.

Therefore, the stockholders of this bank are liable to the depositors for \$200,000, and it would be necessary for the bank to lose this amount above the surplus before the depositors could sustain a loss of a single cent.

This is called "Stockholders' Double Liability," and the amount of the same being fixed by law, it is evident that this is a very important factor in "National Bank Protection."

In our next advertisement we shall consider "Surplus" as a protection.

It seems that the divorcee is only a deferred dream.

Every city in the country wishes it had an army division that it could honor en masse.

The best Ford story we have heard of in a long time is the story of the Ford which was stolen from a Rutland man in Providence, R. I. July 31, 1918, and which was recovered March 20, 1919.

It will be far more to the point if the United States is enabled to retain control of its own immigration problems than if the Monroe doctrine is kept inviolate in the league of nations agreement.

New York set a good example for New England, in the warmth of her greeting to the 27th division of Hindenburg line smelters. It remains for New England to do as well by the 26th division, heroic fighters in three of the world's greatest battles.

Plans outlined for the 50th anniversary of Goddard seminary indicate that the program will be one of marked interest not only to the alumni and friends of the school but to the public in general; and in consequence there are likely to be more commencement visitors than ever before in the history of the institution. The people of Barre may be looked to to lend co-operation in so far as they are able in entertaining the visitors.

Now that the Vermont legislature has set a positive date for final adjournment of the biennial session the legislation remaining can be shaped so that it can be cleared up with expedition and yet with decent regard for the rule of reason. April 5 as the date for final adjournment leaves nine days for actual work providing the members of the two bodies are disposed to take advantage of the opportunity; and that should be time enough for the work in hand.

The peace diplomats in Paris have finally come to a realizing sense of the absolute need of closing up a peace treaty at once. They have dabbled over four months and have just learned that when they are commissioned to handle the people's business the people are going to have something to say about when the peace treaty shall be signed, as well as what goes into the treaty. Things are likely to move faster now that the specter of bolshevism is extending westward in Europe and coming perilously near Italy.

At the recent welcome given in honor of Dr. F. G. Angell, mention should have been made of those who so efficiently assisted in the musical program. Besides Miss Grant and Wilmer Angell, there were selections given by Glenn Bailey, who played a duet with Wilmer Angell, Mrs. H. J. Smithers, who sang, and was accompanied on the violin by Stanhope Brigham, the latter playing the obligato in a very acceptable manner, and the solo of Leslie Ball of Randolph Center. The musicians are all favorites with the public, and were glad to assist in the welcome to one of our townspeople.

TAKE SALTS TO
FLUSH KIDNEYSEat Less Meat If You Feel Backache or
Bladder Troubles You—Salts
Is Fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

It Can Be Done

Death sentence has been passed upon the old excuse, "It is impossible for me to save money these days."

Every person who is buying Liberty Bonds on the installment plan is demonstrating the truth of the old adage, "If there is a will, there is a way."

We believe that thousands of patriotic Americans, now learning to save money under the spur of Patriotism, will become permanent converts to the Thrift habit, and America will be a better America for it.
